THE LARK SEPTEMBER 2025

Community News

We know a fire can be unsettling, but we're so grateful for your patience and kindness as we work to get everything back to normal. Remediation is nearly complete for the 12 most-affected units, and we're now tackling the gym and breezeway. To keep you comfortable in the meantime, we've moved some of the equipment to the Clubhouse and yoga room. We invite you to grab a snack or some FloWater and say hello to a neighbor! We appreciate you so much and are doing our best to make this process as smooth as possible.

Here's to neighbors becoming friends and many more mornings together.

What Residents are Saying

H.

"My husband and I lived here for 3 years and it's hands down the best apartment complex we've lived in. We were drawn to the Lark from the other 5 star reviews and those reviews lived up to their claims! We are honestly so sad to move away, if it wasn't for the location being too far from our workplaces, we definitely would have kept staying here

Neighbor Bakehouse

Tucked away in San Francisco's Dogpatch neighborhood, Neighbor Bakehouse has become a beloved gem for its innovative and delicious pastries. Known for their unique flavor combinations and impeccable technique, they craft everything from flaky, buttery croissants with unexpected fillings, such as char siu and ube, to savory tarts and other inventive baked goods. Their creations are so popular that they also supply many of the city's cafes. It's a must-visit spot for anyone with a love for artisanal, creative, and top-quality baked goods.

Live Well

North Coast Makes An Impact

Our Summer Food Drive was a huge success, **raising \$6,990 in donations, which translates to approximately 23,300 pounds of food.** With North Coast Living's match, the total doubled to 46,600 pounds. Combined with past donations, we've reached an impressive 132,492 pounds given to communities. Congratulations to Kearney Plaza (1st), Vilara (2nd), and Barham Villas (3rd). These drives have a lasting impact on cities and community systems.
